

Boston Summer 2016

Participant Rules and Guidelines

On any trip, whether it is near or far, participant conduct remains a key factor determining the success of that trip. For this trip, the chaperones have provided for you a list of rules and guidelines so that you understand what is expected of you. Failure to abide by the following rules could result in harm to yourself, your fellow participants, and your host organization both during and following the trip. Participants must read the following rules and guidelines carefully, sign on the line below, and return them to FBA along with the other required forms.

1. Do not behave in anyway or do anything that may jeopardize your own safety or the safety of someone else in the group. This includes horseplay, playing rough, and committing pranks.
2. Be on time. Adhere to the wake up times, meeting times, and lights out times indicated on the itinerary and set by the adult chaperones.
3. Do not deny anyone sleep or rest during their freetime or after lights out.
4. Boys and girls may only enter one another's room prior to lights out and with the permission and presence of the adult chaperone supervising that room.
5. Do not leave the hostel accommodation without the presence or knowledge of an adult chaperone.
6. During all plane stops, train and bus rides, and tours throughout the city remain with your "buddy" at all times. Never be out of sight from your buddy.
7. During our visit to city you will be assigned to a small group. Do not venture away from your assigned group. Make sure that an adult chaperone knows where you are at all times.
8. Do not use or take anyone else's belongings without that person's knowledge and consent.
9. Respect this trip as being entirely tobacco-free, alcohol-free, and drug-free.
10. Be courteous while in the hostel accommodation, restaurants, shops, and all other spaces whether they be public or private. Remember that we are not only guest in other people's communities; we are also representatives of our own communities.
